Introdução ao Desenvolvimento Web
Prof. Leonardo Bravo Estácio

Trabalho 01 – Reproduzindo Layouts Web

Neste trabalho, você deverá **reproduzir alguns dos principais estilos de layout utilizados em páginas web modernas**, respeitando ao máximo suas características visuais e estruturais.

Orientações

1. **Fidelidade visual:** Reproduza cada layout com o máximo de precisão possível, observando **cores, alinhamentos, fontes, espaçamentos** e demais elementos visuais.
2. **Imagens:** Quando houver imagens nas páginas de exemplo, você pode substituí-las por outras de sua preferência, desde que mantenham a harmonia do layout.
3. **Uma pasta por projeto:** Colocar todos os arquivos de cada projeto dentro de uma pasta específica com as imagens e arquivos html, css e js.
4. **Organização do código:** Cada página deve ter seu **próprio arquivo CSS** (separado e exclusivo).
5. **Trabalho individual:** Este trabalho deve ser realizado **individualmente**.
6. **Seleção dos designs:** O aluno deverá implementar um exemplo de cada tipo de layout.
7. **Entrega:** O prazo final para entrega é **15/07/2025**. No qual o aluno deverá apresentar alguns sites para o professor em uma entrevista individual.

Simple Movements

BY [LEO BABAUTA](#)

Most of us move too little throughout the day. Maybe not you, but lots of us. We sit for a big portion of the day, we lie down for some of it, maybe we have a workout at some point, but 98% of the day is spent not moving.

There are some solutions, like a standing desk or treadmill desk, that can be a decent approach. But something simple to consider is just working in small movements throughout the day.

Of course, that's always easier said than done. I'm here to share a few ideas to help with this idea:
